OVERVIEW

In this game, players will take turns rolling dice to have a chance to unwrap and keep a gift. The catch? They'll have to unwrap the gift using oven mitts!

WHAT YOU'LL NEED

- 2 dice
- 1 pair of oven mitts
- A cheap but fun gift
- Tape and wrapping paper
- 4 contestants (You can also choose one Small Group to play.)

HOW-TO

PREP

- Wrap your gift using the tape and wrapping paper.
- Get creative and make the gift really hard to unwrap! Use layers or additional boxes for an added challenge.

PLAY

Ask your players to form a circle or a line and give one student in the group the oven mitts and the wrapped present. Give another student in the group the set of dice. Challenge one student to unwrap the present using only the oven mitts while the player with the dice tries to roll doubles. If the student rolling the dice gets doubles, they'll get a turn to try to unwrap the gift with the oven mitts. If the player doesn't roll doubles, the dice gets passed to the next student in the group for them to roll. (The dice can get passed along either clockwise or down the line of students.) Continue playing until the gift is completely unwrapped. The winning student gets to keep the present!
