OVERVIEW

Using lassos made from rope and hula hoops, players will attempt to collect balls in the center of the playing area. The player to collect the most balls in one minute wins!

WHAT YOU'LL NEED

- 2 players
- 2 helpers
- 2 hula hoops
- 2 12-foot ropes
- 100 play-pit balls
- 2 large storage bins (Clear would be best!)
- Masking tape
- The timer feature on the DYM Sidekick App or a stopwatch

HOW-TO

PREP

- Create two "lassos" by tying the end of each rope to a hula hoop.
- Clear a large area in your environment (up to 20'x20').
- Use tape to create two 2'x2' squares on opposite sides of the playing area. This will be where players stand.
- Place a lasso and a storage bin near each player's space.
- Dump the play-pit balls in the center of the playing area, spreading them out evenly.

PLAY

Staying within the bounds of their playing squares, contestants will have one minute to throw their lasso into the playing area and pull back any balls that the hula hoop lands around. Once the balls are dragged back to their playing squares, contestants will place them into their storage bins.

The player who collects the most balls in one minute wins! Have your helpers throw any balls that roll out of the playing area back into play, as well as count the collected balls at the end of each round. Play as many rounds as time allows.
